The CWCRC (parts 710 through 729 of this subchapter) implement certain provisions of the Chemical Weapons Convention under the authority of the Chemical Weapons Convention Implementation Act of 1998 (Act), the National Emergencies Act, the International Emergency Economic Powers Act (IEEPA), as amended, and the Export Administration Act of 1979, as amended, by extending verification and trade restriction requirements under Article VI and related parts of the Verification Annex of the Convention to U.S. persons. In Executive Order 13128 of June 25, 1999, the President delegated authority to the Department of Commerce to promulgate regulations to implement the Act, and consistent with the Act, to carry out appropriate functions not otherwise assigned in the Act but necessary to implement certain reporting, monitoring and inspection requirements of the Convention and the Act.

§ 710.6 Relationship between the Chemical Weapons Convention Regulations and the Export Administration Regulations, the International Traffic in Arms Regulations, and the Alcohol, Tobacco, Firearms and Explosives Regulations.

Certain obligations of the U.S. Government under the CWC pertain to exports and imports. The obligations on exports are implemented in the Export Administration Regulations (EAR) (15 CFR parts 730 through 774) and the International Traffic in Arms Regulations (ITAR) (22 CFR parts 120 through 130). See in particular §§ 742.2 and 742.18 and part 745 of the EAR, and Export Control Classification Numbers 1C350, 1C351, 1C355 and 1C395 of the Commerce Control List (supplement no. 1 to part 774 of the EAR). The obligations on imports are implemented in the Chemical Weapons Convention Regulations (§§ 712.2 and 713.1) and the Alcohol, Tobacco, Firearms and Explosives Regulations in 27 CFR part 447.

Produced by a biochemical or biologically mediated reaction	Produced by synthesis*	
Formation through chemical synthesis. Processing to extract and isolate Schedule 1 chemicals.	All production steps in any units within the same plant which includes associated processes—purification, separation, extraction distillation or refining.**	

*Intermediates used in a single or multi-step process to produce another declared UDOC are not declarable.
 **Intermediates are subject to declaration, except “transient intermediates,” which are those chemicals in a transition state in terms of thermodynamics and kinetics, that exist only for a very short period of time, and cannot be isolated, even by modifying or dismantling the plant, or by altering process operating conditions, or by stopping the process altogether are not subject to declaration.
